DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 04/23/07 has been entered.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-14, 16, 17, 21-37, and 39 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

4. The term "limited instant messaging functionality" in independent claims 1, 29, 34, and 37 is a relative term which renders the claim indefinite. The term "limited instant messaging functionality" is not defined by the claim, the specification does not provide a standard for ascertaining the requisite degree, and one of ordinary skill in the art would not be reasonably apprised of the scope of the invention. The recitation of "limited" does not distinctly define this aspect of the invention to allow one of ordinary skill in the

Art Unit: 2144

art to readily distinguish those characteristics of a prior art instant messaging system apart from a non-limited instant messaging functionality. Examiner suggests language similar to that of claim 38 in further clarifying this term ("wherein said limited instant messaging functionality includes disabling, at least with respect to the guest user, at least one feature of the client side instant messaging application software installed on said registered user client computer system...").

5. Claim 39 recites the limitation "disable feature". There is insufficient antecedent basis for this limitation in the claim.

Claim Objections

6. Claim 38 is objected to because of the following informalities: the claim recites "said registered user client computer system.; and". Claims must not contain more than one period. Appropriate correction is required.

Response to Arguments

7. Applicant's arguments filed 04/23/07 with respect to the rejection(s) of claim(s) 1-14, 16, 17, and 21-39 have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of the claim language under 35 U.S.C. 112, second paragraph as detailed above. Additionally, a minor informality is objected to in claim 38.
